## EDUCATION

**Carnegie Mellon University** **Expected May 2027**
*M.S. in Software Engineering | GPA: 4.0 / 4.0*
Selected Coursework: Distributed Systems, Foundations of Software Engineering, Large Language Model Systems

**University of Wisconsin–Madison** **May 2024**
*B.S. in Computer Science & B.S. in Computer Engineering | GPA: 3.72 / 4.0*
Selected Coursework: Data Structure & Programming III, Algorithms, Operating Systems, Software Engineering

## WORK EXPERIENCE

**NewsBreak** **May – August 2026**
*Backend Engineer Intern* *Mountain View, CA*

- Built the Python FastAPI and MongoDB backend from its first commit to 89 REST endpoints and 7 Kubernetes CronJobs on AWS EKS, with ∼1,450 offline tests gating every merge in CI (ruff, pyright, pytest).
- Stood up production EKS (Helm, Jenkins, Docker) on day 3, set up Prometheus and Grafana, and fixed a 5-day silent CronJob outage with paired job and scheduler deadlines.
- Built a near-real-time news data pipeline as a Kubernetes CronJob (ingest, embed, LLM-score, dedupe, push in ∼2 min); ran it in shadow on production traffic for 11 days, cutting filler alerts from 34% to 4%.
- Root-caused a 65% failure rate in another team's LLM workers via Langfuse traces and a Helm env shadowing the code default, and sized a token cap against observed successful runs.
- Cut the World feed from 25–30 client requests to one backend call; caught that its AI-written cache never hit (keyed per user, 13.2 MB each) and shared one 10.9 MB copy as the pod neared its memory limit.
- Shipped SportsBreak to the App Store as the sole SwiftUI engineer (∼6,000 installs) with Firebase auth, and moved nine third-party integrations server-side so the iOS binary ships zero API credentials.

**Haddee Education** **June – September 2025**
*Engineering Lead* *San Diego, CA*

- Led an 8-intern team through Agile sprints to ship a React, Next.js, FastAPI, and Supabase MVP on GCP App Engine; designed database schemas and REST APIs for LangChain resume parsing and AI job matching.
- Broke down user stories, led PR reviews, and mentored interns on Git workflows, testing protocols, and scalable code practices.

**ZenAI — MiraclePlus (Formerly YC China) F23** **September – December 2023**
*Full Stack Developer* *Beijing, China*

- Built a VC-backed startup's LLM mock-interview web app from 0→1 as the sole engineer in React, Next.js, Supabase, and PostgreSQL; owned authentication, session state, and database interactions.
- Iterated AI scoring and UI from user testing, worked with recruiters so scoring matched real hiring, and demoed the product until three 200–500-person companies signed contracts.

## SKILLS

| | |
|---|---|
| **Languages** | Python, Java, JavaScript, C, TypeScript, SQL, Go, Swift |
| **Cloud & Data** | AWS, Kubernetes (EKS), Docker, Helm, PostgreSQL, MySQL, MongoDB, Redis Streams |
| **DevOps & Ops** | Git, GitHub Actions, Jenkins, CI/CD, Prometheus, Grafana, Langfuse, Linux, Bash |
| **Backend** | FastAPI, REST APIs, Firebase Auth / Sign in with Apple, pytest, Unit Testing |
| **AI / LLM** | Claude Code / AI coding tools, LLM tool calling / agents, RAG, LangChain, PyTorch |
| **Certifications** | AWS Certified Solutions Architect – Associate, AWS Certified Cloud Practitioner |

## PROJECTS & LEADERSHIP

- **my-av:** Developed a PyTorch CNN-GRU for real-time steering-angle and speed prediction from 20-frame (1s) video; built a data pipeline over 33 hours of Comma2k19 (shuffling, temporal windowing, 240×320 frames).
- **codingplans:** Building a site that rates LLM coding plans; bought Z.AI, MiniMax, and Kimi plans and tested KV caching, long context, and needle-in-a-haystack to expose nerfed caching and heavy quantization.
- **Wisconsin Autonomous:** Integrated wheel-speed encoders with voltage-to-frequency converters on the competition rover and streamed real-time data to the onboard NVIDIA Jetson.
- **ECE Leadership & Engagement Fellow** (CMU, Aug 2026 – present): Own budgeting, marketing, and outreach for ECE student programs — company-sponsored hackathons, alumni events, and tech event outings.
