PROJECTS & LEADERSHIP

- ECE Leadership & Engagement Fellow** (CMU, Aug 2026 – present): Own budgeting, marketing, and outreach for ECE student programs — company-sponsored hackathons, alumni events, and tech event outings.
- my-av**: Developed a PyTorch CNN-GRU for real-time steering-angle and speed prediction from 20-frame (1s) video; built a data pipeline over 33 hours of Comma2k19 with shuffling, temporal windowing, and 240-by-320 frame processing. Trained locally on CUDA and on GCP Vertex AI; implemented streaming inference.
