EDUCATION

Carnegie Mellon University

Expected May 2027

M.S. in Software Engineering | GPA: 4.0 / 4.0

Selected Coursework: Distributed Systems, Foundations of Software Engineering, Software Refactoring

University of Wisconsin–Madison

May 2024

B.S. in Computer Science & B.S. in Computer Engineering | GPA: 3.72 / 4.0

Selected Coursework: Operating Systems, Algorithms, Data Structure & Programming III

WORK EXPERIENCE

NewsBreak

May – August 2026

Infrastructure Engineer Intern

Mountain View, CA

- Stood up production EKS (Helm, Jenkins) on day 3: 7 CronJobs, a two-stage amd64 image, and a ruff / pyright / pytest GitHub Actions gate; grew the suite to ~1,450 fully offline tests.
- Diagnosed a 5-day silent CronJob outage (non-terminal ImagePullBackOff and Forbid concurrency) and fixed it with paired job and scheduler deadlines; caught a stale ArgoCD app with prune and self-heal that would have wiped Jenkins deploys.
- Migrated nine third-party integrations server-side so the iOS binary ships zero API credentials; spot-checked two closed security tickets against the code, found the fixes absent, and reopened them with line-level evidence.
- Shipped Stripe web checkout with a signature-verified webhook as the only trusted fulfillment path, idempotent fulfillment, and recovery of pending transactions stale for 60 seconds.

Haddee Education

June – September 2025

Engineering Lead

San Diego, CA

- Led an 8-intern team through Agile sprints to launch a React, Next.js, FastAPI, and Supabase web app on GCP App Engine; broke down user stories, led PR reviews, and mentored interns on testing and Git workflows.
- Designed database schemas and REST APIs for LangChain resume parsing, improvement suggestions, and AI job matching.

ZenAI — MiraclePlus (Formerly YC China) 2023 Fall Batch

September – December 2023

Full Stack Developer

Beijing, China

- Built an LLM mock-interview web app from scratch as the sole engineer using React, Next.js, Supabase, and PostgreSQL; owned authentication, user session state, and database interactions.
- Refined AI scoring with recruiters to reflect real hiring criteria and improved the UI through user testing; demoed the product and obtained contracts with mid-sized companies.

RESEARCH EXPERIENCE

Control & Learning Group — Carnegie Mellon University

February – June 2026

Graduate Researcher | Advisor: Prof. Yorie Nakahira

- Developed an Online Adaptive Probabilistic Safety Certificate (PSC) with PhD researchers; outperformed Adaptive MPC in 3-DOF vehicle simulations under environmental uncertainty.

SKILLS

Languages

TypeScript, Python, SQL, JavaScript, Go, Java, C

Cloud & DevOps

GCP, Terraform, Kubernetes (EKS), Docker, Helm, Jenkins, GitHub Actions, CI/CD, AWS, Grafana

Frameworks & Tools

React, Next.js, FastAPI, Pydantic, Firebase, Supabase

Data & Storage

PostgreSQL, MongoDB, MySQL, REST APIs

Testing & Practices

pytest, Unit Testing, TDD, ruff, pyright, Git, Jira, Agile/Scrum

Certifications

AWS Certified Solutions Architect – Associate, AWS Certified Cloud Practitioner

PROJECTS & LEADERSHIP

- **my-av:** Built a PyTorch CNN-GRU to predict steering angle and speed from 1s video; trained on 33 hours of Comma2k19 using local CUDA and GCP Vertex AI and implemented streaming inference.
- **ECE Leadership & Engagement Fellow** (CMU, Aug 2026 – present): Own budgeting, marketing, and outreach for ECE student programs — company-sponsored hackathons, alumni events, and tech event outings.
